Mathew J. Lanigan Bridge Advisory Committee Meeting

January 27, 2017

10:00 am – 12:00 pm

At the Village Fire Station in Kennebunkport

The Contractor has requested the possibility of utilizing 24 hour work times during the demolition phase of the project. The contract requires permission from both Towns to do this and the Towns would like feedback from the Bridge Advisory Committee on this before making their decisions. This will also be an opportunity for MDOT to provide updates on the status of the project and answer questions that the committee may have.
