- 83 Ocean Ave. Kennebunkport Dock Proposal

The Committee reviewed the dock proposal for 83 Ocean Ave. Kennebunkport. Chairman Rick Roberts had spoken with Lisa Vickers at Eco-Analysts and informed the Committee of the non-conformities of the existing and proposed dock. Mr. Roberts went on to tell the Committee the proposed dock would stay within the existing footprint of existing dock, the dock would not extend any further into the river than existing dock and the dock fell under Article 8 of the Kennebunkport Ordinance for reconstruction of a non-conforming structure. Also, the dock has existed before 1963 and falls into a “grandfather” clause of sort.

The Committee voted on the proposal and unanimously approved the proposed dock as long as it stays within the existing footprint of existing dock and does not extend further into the river than existing dock.
