

## KENNEBUNK TREE COMMITTEE

MEETING MINUTES 11/12/15

### PRESENT:

C. Wayne Cutting  
Paul Cotton  
Richard Morin  
Chris Ostereider

Discussion centered on the upcoming Project Canopy grants.

Chris informed us that there are two types of grants available, one for tree inventory and maintenance, and one for planting projects.

While it is possible to apply for both types of grants, in all probability we would be asked to choose one over the other. It was decided to apply for the tree inventory/maintenance grant. This grant has a max of \$ 10,000 with an equal match from the town. The town share can be in kind services/manpower.

Chris will be writing and submitting the application for us. This is due on 12/4/15. He will be sending the comm. a draft of the application on 11/30/15 for any additional input/tweaking that we might have.

We also decided to pursue a small planting project at Parsons Field along Park St. to replace the maples which have died off of which there is only one tree left. This will be presented to Barry for possible inclusion in regular town budget funding for next year. Wayne and Paul will develop a proposal within the next month.
