*(Draft) MISSION STATEMENT (Kennebunk Sustainability Committee?)

To assist Town Officials in addressing the challenges presented by Climate Change. This would include, but is not limited to, advising the Town on ways to reduce its carbon footprint through conservation, alternative energy choices and reducing trash production in/on Town owned properties and at Town sponsored events. The KSC also works to educate and inform residents on how they can reduce their own carbon footprint through, among other things, reducing their energy use and minimizing their contribution to the waste stream. CONSERVE, CHANGE, REDUCE, RECYCLE, REUSE AND RETHINK are the Committee's guiding principles.
