Most of the meeting was spent refining the wording of proposed strategies and actions as had been suggested by SMPDC. There were also discussions about the structure of the strategies/actions according to 1) short, medium and long term and/or 2) primary actor – Municipal, Household, regional or state government, etc. Alison plans to add a reference column tying strategies/actions to the Comprehensive Plan.

Plans were made for a public forum to review and comment on the proposed strategies/actions and for an update and work session with the Select Board. Tentative dates are March 16 10-12 AM and April 2 at 6:30. The Forum will be in Room 300 and feature posters formatted by SMPDC detailing the strategies/actions. The public will be invited to provide responses. The Select Board session will be broadcast and after discussion with the Board, public comment will be welcome. Town Staff will be invited.

The Forum and Workshop will be promoted on social media and the Town website as well as through press releases.

It was suggested that for ease of communications the Task Force should select the ten strategies it would most like to focus on.

The meeting was adjourned at 11:00.
