All items eligible for recycling should be brought to the checkout area of the store to be assessed and accepted by a Staples associate. If accepted, the associate will process your items to be recycled and qualify the no-cost transaction. When you recycle your eligible electronic device at Staples, you relinquish all ownership rights in the device when you give it to Staples to be recycled. Additionally, Staples is not responsible for any data left on the device turned in for recycling.

You are solely responsible for removing data from your device, and you acknowledge that submission of a device for recycling is at your sole risk.

Staples is an e-Stewards Enterprise, which means that we have committed to using certified e-Stewards recyclers whenever possible to handle the materials we collect. Our recycling partner is audited against stringent standards and discloses its downstream processing partners to ensure that they are using responsible e-waste recycling practices and not exporting or otherwise improperly handling electronic materials.
